President Wilson In S. F. Sept. 15

Engineers Ordered Back To Work---U. S. Grand Jury Probing Mail Abandonment

PRESIDENT TO VISIT S. F. SEPT. 15

He Promises Lower Cost of Living and Asks Workers Not to Demand Wage Raise Until Government Can Act To Stop Profitsteering--Will Review Pacific Fleet Here.

WASHINGTON, Aug. 27.—President Wilson will begin his trip to the Pacific coast just as soon as details can be arranged, probably within ten days or two weeks. Secretary Tumulty made this definite announcement today, adding that the President felt he should make the trip. It is regarded as likely that the President will reach the Pacific coast in time to review the Pacific fleet at San Francisco September 15.

While the itinerary still is incomplete, it was regarded today as almost certain that the President would speak at Sioux City, Iowa, Minneapolis or St. Paul, Minn., and Bismarck, N. D.

WASHINGTON, Aug. 27.—An announcement that the President will start on his tour of the country within a few days, coupled with the meeting of the executive council of the American Federation of Labor, starting tomorrow, convinces Washington today that a climax may soon be expected in the unprecedented situation gripping the country.

The trip will afford the President an opportunity to put before the country his position on the matter of wage increases while attempts at lowering the cost of living are just getting under way.

The shopmen whose strike would tie up the railroads, are not satisfied with the President's disposition of their case. One of the questions that will be answered before the President starts his trip is whether the American Federation of Labor will get behind him or back the shopmen. The President's friends are confident of A. F. of L. support.

With President Samuel Gompers of the American Federation of Labor due in Washington to attend a meeting of the federation's execu-

COMMUNITY SING AND BAND CONCERT

The second of Richmond's Community Sings will be held tonight at the band stand in conjunction with the regular municipal band concert.

Captain H. C. Stone of the War Camp Community Service will lead the singing. He comes from Los Angeles, where he was in such demand to lead Community Sings that the theaters were bidding for his services. Besides being a singing leader Captain Stone has a reputation as a comedian and he guarantees to make everybody happy and so full of song that they "just can't help singing."

Those who are interested in forming a Community chorus are especially invited to attend the sing, as Captain Stone will probably make arrangements for an early meeting for that purpose.

LAUNDRY WORKERS

There will be a called meeting tonight at Labor Temple of all laundry workers of Richmond for the purpose of organizing a union, and all interested parties are requested to be on hand.

tive council tomorrow, it was predicted that the situation will come to a head before the end of the week.

GENERAL STRIKE SITUATION

All trains out of Oakland and San Francisco cancelled.
Bay district strike spreads to San Jose.
Orders issued by "Big Fore" officials for men at Los Angeles to return to work.
Four more west bound trains held up in Albuquerque, New Mexico.
Mail blockade in Los Angeles yesterday broken by use of trucks.
San Bernardino strikers declare they will ignore Stone's order to resume their runs.
Stockton completely isolated. Freight and passenger traffic at complete standstill.
Fruit shippers at San Jose fear heavy loss as result of railway tieup.
Railway officials serve as switchmen in Santa Barbara yards.
Federal Grand Jury meets in Los Angeles to inquire into abandonment of mail train by strikers.
California, Nevada and Arizona are almost entirely isolated from the remainder of the nation today as the result of the railroad tieup. The Southern Pacific railroad admitted that it is not moving trains in any of the three states. The tie-up of the Salt Lake road extends as far east as San Bernardino. Santa Fe service is cut off west of Needles.

LOCAL STRIKE SUMMARY

Station Agents Stiver of the S. P. and Trull of the Santa Fe admit that they do not know any more about what is going to happen than anybody else, and can only judge from day to day and hour to hour as tidings by wire come in from higher officials.

The local Santa Fe yard is getting clogged with freight cars, much of which is fruit, perishable goods. That will be a total loss to somebody unless moved quick.

Shipyards workers living in Richmond and other towns and employed at Bay Point are paying \$2 a trip to get to work. The shipyard will have to close unless the present situation is speedily remedied, throwing several thousands of men out of employment.

Standard Oil is cleaning out its warehouses and preparing to store its product as long as possible, but unless the product can be moved by the time the storage room is used up, at least a partial shutdown must follow, with probable layoff of two thousand workers.

Western Pipe and Steel, the Cemented Roofing factory and other local industries will work as long as they have storage room for their products and no longer.

Pullman shops left off two hundred men yesterday and more will follow unless cars can be brought in and out.

Local street car men are due to go on strike early in October unless wages are raised and it is possible that they may go out on sympathetic strike any day.

Key Route and S. P. ferries are still operating, but are liable to stop on a moment's notice, officials believe.

Every available auto and truck is in use, transporting mail and food. Food prices are already jumping to unheard of figures, especially on fruits and perishables. Those who can are laying in flour and other supplies ahead.

Manager Brooks of Standard Oil says he will use every possible endeavor to keep going. Superintendent Donnelly of the street car company was in conference with head officials in San Francisco last night.

C. OF C. MEETS AT TALKFEST

A meeting was held last night of the Chamber of Commerce executives, for the purpose of permanent fixing the date of the big gathering, banquet and election of officers, as well as merger with the Merchants' Association for September 11.

Secretary Farnham of the Martinez Chamber of Commerce was present, accompanied by Martin Joost, and he endeavored to interest Richmond in making a big exhibit at the coming county fair, October 6 to 13 next. After much talk back and forth it was decided that the local boost body would appoint a committee in the immediate future to get behind the project and see to it that Richmond is properly represented at the county fair.

This county fair is going to be a very big event, and Richmond must not overlook having a good representation and exhibit of its big industries there. Every other section of the county is taking part and the exposition will attract thousands of visitors from far and near. It is being extensively advertised.

RAILWAY BROTHERHOOD MEETING AT L. A.

CLEVELAND, O., Aug. 27.—No matter how high you make wages, living costs have demonstrated that they can climb as fast, in fact, take delight in so doing.

EAST BAY ELECTRIC TRAINS MAY STOP

After several hours' deliberation a meeting of local members of the "Big Four" brotherhoods was concluded at the Pacific Building in Oakland yesterday. No statement would be given out by the leaders of the meeting at its conclusion. It is understood the possible calling out of the men in the east bay electric train service was considered. Whether a possible strike of traction men on both sides of the bay was also considered none present at the meeting would state.

STANDARD OIL MEN MEET TOMORROW

Meeting of the Standard Oil employees will be held Friday evening at 8 o'clock in the big hall at Labor Temple. Joseph C. Leber, of the Central Labor Council, will address the meeting, which is expected to be a record-breaker, as the men at the Standard are now fully aware that the trade union movement is their only hope for higher wages and better working conditions.

Reports coming in from other parts of the country show that the local men are not the only ones who are joining the Oil Workers' Union and it is only a matter of a short time until the Standard plants all over the country will be thoroughly organized.

POINT TALKS PLAYGROUNDS

There was a fine representative meeting at the Washington school last night by the men and women of Point Richmond, who want to see things move over in that section of the city, and particularly a nice park and playground bought and improved in the immediate neighborhood of the school building.

The matter was canvassed pro and con by a dozen different citizens and all expressed themselves as being heartily in favor of the establishment of a park district and the purchase and improvement of land for a park and playground.

A committee was appointed by President E. J. Garrard of the West Side Commercial Club, consisting of J. O. Ford, Lee Windrem, George Lee, H. G. Stidham, C. S. Downing, and E. J. Garrard. This committee is to make inquiries as to what the land adjoining the school can be purchased for and all particulars, and report back at another meeting to be called in the near future, some time next month.

Other matters of interest were discussed, and the plan of Supervisor Zebb Knott to change the San Pablo creek road so it will come down by way of St. Joseph's cemetery was endorsed.

RICHMOND POINTERS

The next pointer Richmond people need to be considering is that next month they are going to be called upon to vote for or against additional bonds for further development of their harbor. In this matter we of Richmond are much like the individual who had the bear by the tail—he was afraid to let go. We have our harbor partially completed and the U. S. Government is ready to go ahead and help us still more toward the completion, and we have not the price to do our half. The harbor as it is cannot answer its purpose, and unless we go ahead with the work much of what is already done will be lost—so we simply can't let go. Better be studying up on the problem in the next few weeks, and be ready for intelligent action.

JOHN MOITTOZA DIES OF BLOOD POISON

John Moittoza, aged 14, living out near San Pablo, died Tuesday night at the family home, of what was finally determined to be blood poison. He received an injury to his leg while working with a hay machine a while back, but it was not thought to be anything more than a bruise. Later he became ill and the physician, not knowing anything about the accident, treated him for rheumatism.

He got worse and a consultation of physicians, learning of the cause of the ailment, decided that the lad was in the last stages of blood poisoning. It was too late then for amputation to save him and he passed away Tuesday night.

The body was taken in charge by the Curry undertaking parlors and later removed back to the home, where it now is. Funeral services will be held Friday at 10 a. m. from St. Joseph's Catholic church, San Pablo, with interment in St. Joseph's cemetery.

Deceased leaves a father, mother, two brothers and two sisters. The Moittozas are old settlers in that section of the city and have many friends who deeply mourn the affliction which is now theirs.

Donato Dovetta, G. Sam, G. Evangelista, L. Analla, Andrew Bunocahi, B. Otto, John Perrone, L. Chasseur, G. Robbiano, G. Manna. After the ceremonies were over a banquet was held.

PROGRAM FOR EAST BAY SEPT. 3

Richmond's Reception to Secretary Daniels All Arranged. He Will Be Accompanied by Several Naval Dignitaries and Will Be Shown Harbors Here By Large Committee.

Chairman Wierda has completed about all the arrangements for the grand reception to be tendered Secretary of the Navy Josephus Daniels here on Sept. 3, and Richmond is to pay high honor to the gentleman and his staff. The reception committee of local men and women is very large and half the automobiles in town will be pressed in use for the occasion. Following is the program for the East Bay Day:

Neither a Shack

Nor a Palace

The advantages of home-buying in Tapsco Park (Cutting Boulevard and San Pablo Avenue) are many—one of them being the homes surrounding your bungalow are of the same attractive appearance.

There is not, and cannot be, a dwelling next to yours that detracts from it. Neither will there be a big mansion erected to completely overshadow a more simple home. There is no building competition, one home-owner seeking to outdo the other.

All the homes will cost about the same. Some will have a room or two more, some may be a little more expensively finished on the outside, but all the homes will be in keeping and will add to the artistic harmony of the entire district.

See the egypt of homes being erected. If you find one that meets your requirements we will sell it to you for a small payment down and the balance in rent terms.

If you do not find one that suits you, tell us what you want. We will build one to your order on the same easy payment plan.

This is the best building offer it is possible to make. Even if you are not planning on buying a home now, you will be interested in the development of Tapsco Park. You are cordially invited to visit the property and ask all the questions you like.

WE'RE TO BE HAIRLESS AND TOOTHLESS

A current magazine contains an able article from an eminent scientist, who gives it out cold that the human being of the future is to be hairless and toothless. From infancy to old age no hair or teeth are to torment our posterity. The claim is that the evolution of clothing and cooking is obviating the necessity of hair and teeth more and more all the time, which sounds reasonable. With the canned soups, breakfast foods and all that sort of dope it can be seen that chewing is fast becoming unnecessary, except with the fellow with the fresh plug of Star or Battleax, and even he can use fine-cut. Watch the men at any quick lunch joint in a big city, at the noon hour—three-fourths of them call for cornbeef hash and swallow it without chewing.

The wearing of various head coverings of many kinds is knocking out the hair, also, until today a majority of men have bald spots and the women hang theirs over the back of a chair at night to cool off and give the microbes a chance to tell each other of the think throbs they have had to listen to all day. About the only individual nowadays who is not more or less bald is the Indian, who wears no hat, not even a green fuzzy one with a bow at the back, and he is no good until he is dead.

People have not time to chew their food, so teeth have become prey to the dentists and an aching expense to their possessors, good mostly as costly gold deposits, abscesses and sources of worry and profanity. We do not mind the teeth so much, being of an age where ours are no longer of the pearly kind and grinning advertisements of Dr. Scrubem's paste or powder, but we would hate to be ennobled baldheaded, so take some comfort in the thought that when the hairless and toothless age arrives we will have meandered on across the shady shore and taken ours along with us to a place where scientists can not rule and where dentists never go.

TAKE THE MONEY, BRETHREN

Many ministers throughout the country are still "chewing the rag" about the churches and colleges accepting old John Rockefeller's "tainted money."

It is all right to roast old John, brethren—he needs it, now and maybe in the hereafter—but take the money. Take all you can get and then ask for more! It is surprising how fast the taint wears off of money when once you get hold of it yourself. And as far as that is concerned, there is no money that is not more or less tainted. The only place on earth where money is without taint of any kind is in a gold mine or at the mint. Where do the croakers, who back away at sight of Rockefeller's money suppose the dollars have been before they finally land in their contribution boxes? They have been on mighty bad old jamborees long before they got into the sanctuary. The devil bought souls with them! They were paid out and received in exchange for rum, on the throw of the dice or turn of the roulette wheel.

they purchased men's honor and women's virtue; they caused perjury, corrupted legislators, polluted courts and committed bigamy, arson and murder! A dollar some bleary-eyed bartender or doxy prostitute pays for rent to the deacon, who drops it into the mission fund to ease his frazzled conscience, is as badly tainted as any of old John's millions, and no matter how much harm has been done with money on its wanderings around among the laity it can do just as much good when it gets into good hands and is expended in a good way.

Don't look a gift horse in the mouth, brethren—take the money! And if you use it in a righteous cause the taint will soon wear off.

THINKOGRAPHS

A breakfast without coffee

To most men is as grand

As marching in St. Patrick's

Parade without a band.

Among the things which age has to wrestle with are false teeth, rheumatism and an overdue note in the bank.

Sure, we all have a right to our opinions, but don't forget that the other fellow also has the same right.

Quite a sprinkling of self-made men did not do much of a job and have never made anything since.

Willing money to charity is good, but it is better to give it while yet alive to witness the benefits.

A fool and his money being soon parted is not much of a parting, as a fool has little money to part with.

The average rich man began at the bottom and worked up, but his children of today begin at the top and work down.

We may be mistaken, but we believe we can whip any man who eats grapevines and shredded baled hay instead of bread and meat and potatoes.

When this question of sex rights has all been fixed up, will we male bipeds wear \$9.98 millinery creations and kiss each other on the street? Not me!

Several new bills in Congress have for their object the abolishment of poverty. Since this H. C. L. stunt we are in favor of that very thing. Down with poverty!

"Saving up for a rainy day" is all right, and it is also a good scheme to have a few dollars on hand even when it is not raining.

Scientific care of the poor, the needy and the unemployed is the duty of the state and nation, for it benefits the state and nation more even than the individual helped. Unemployed men soon become unemployable men.

Testimonial

To Whom It May Concern:—For over eight
months I suffered from a bad form of kidney
trouble and I had almost come to the belief
that it was incurable. Some three months ago
I consulted a Chinese Herb Specialist (Lai Po Tai
Chinese Herb Co., Eighth and Macdonald) and
after using the Chinese Herbs for a few weeks
I was healed of the ailment. Since then I have
resumed my regular work and have steadily
gained in strength and my weight has increased.

NOTICE OF IMPROVEMENT INVITING PROPOSALS THEREFOR NO. 330.

Pursuant to Statute and to Resolu-
tion Directing the City Clerk to Re-
ceive and Seal Proposals No. 330 of
the Council of the City of Rich-
mond, California, adopted August
25, 1919, directing this notice, NOTICE
IS HEREBY GIVEN that for the fol-
lowing described street work, ordered
by said Council, and to be done ac-
cording to Specifications Nos. 330 post-
ed, and on file in my office, and here-
tofore adopted by said Council on the
21st day of July, 1919 by Resolution
Adopting Plans and Specifications No.
330 to which specification reference
for particulars is hereby made, name-
ly:
That ANDRADE BOULEVARD between
the westerly line of Twenty-
third Street and the easterly line of
Twenty-sixth Street, and TWENTY-
FOURTH and TWENTY-SIXTH
STREETS between Humphrey and Mc-
Grady Avenues, be graded to the or-
dinal line and grades, paved with a
five (5) inch cement concrete base
with a wearing surface of asphalt and
broken rock.
That curbs, gutters, sidewalks, wing-
walls and portals of cement concrete,
curb-bases of railway tracks, and
culverts of corrugated iron or steel
and cement concrete, be constructed
thereon.
That ten (10) inch sewers of stand-
ard size glazed vitrified sewer pipe
be constructed in Twenty-third Street
between the northerly line of Andrade
Boulevard and the southerly line of
McGrady Avenue.
That six (6) inch sewers of stand-
ard size glazed vitrified sewer pipe
be constructed in Andrade Boulevard
between the westerly line of Twenty-
third Street and the easterly line of
Twenty-sixth Street.
That manholes of brick and cement
concrete with cast iron rims and cov-
ers, and a branch and a "Y" of
franches of standard size glazed, vit-
rified sewer pipe, be constructed on
said sewer.
That all of said work shall be done
in the manner and the plan and
specifications as specified, set forth
and shown on the plans and specifica-
tions for said work, and adopted by
the Council of the City of Richmond,
its Resolution Adopting Plans and
Specifications No. 330, passed and
adopted by said Council at a regular
meeting thereof on the 21st day of
July, 1919, and now on file in the
office of the Clerk of the City of
Richmond, reference to said plans and
specifications being hereby especially
made.
Excepting, however, from all the
afore-described work such portion as
is required by any person or com-
pany having railroad tracks thereon;
and also excepting from all the afore-
described work any portion thereof
already done to the ordinal line and
grades, and constructed in accordance
with the plans and specifications
herein mentioned.
And the said Council of the City
of Richmond does hereby determine
and declare that said proposed work
and improvement is of more than lo-
cal or ordinary public interest,
and will affect and benefit the lands
and interests of the City of Rich-
mond, and that the said proposed work
and improvement is hereby declared to
be a public work, and that the entire
costs, charges and expenses of
said work and improvement shall
be and is hereby made chargeable
against, and shall be assessed upon
said lands and interests within the
County of Contra Costa, State of Cal-
ifornia, and is bounded and more

Local Laconics of Richmondites

The Wilson-Donnelly undertaking parlors have put in a large stock of the finest caskets made. It is really a revelation to look at them. Some of them are very beautiful, and others are of metal throughout.

Mrs. Gibb lost her poodle dog, advertisement found the purr right away. Bet that dog reads the News.

Mrs. McCloskey of San Francisco is visiting Mrs. Mary Mitchell, who has a grocery and home out 23d street toward San Pablo.

Frank Hull and Crandall disappeared last evening for up county points, to buy a ranch, or something. Since Frank quit the newspaper business he looks quite like a gentleman—wears soft shirts, smokes a pipe and rides around in a car. **Lucky dog.**

Of all the cash registers one ever saw, it is the one in the Jones drygoods store window. We can't describe it—it must be seen to be understood. Looks like a whole circus bandwagon and calliope combined.

Postmaster Starley says he did not go crazy over the store-keeping proposition, as the News feared, but may get all kinds of bughouse if the trains don't move mail pretty soon, as it is piling up fast and he is depending on street cars, auto buses and boats, and may have to buy a few aeroplanes.

New Furnishing Store Is Busy

The Grand Opening of Mackey's, the up-to-date men's furnishing house, was held yesterday. Judging from the fine and complete stock carried by this new firm and the many friends and customers of the proprietors who visited the establishment on its opening day it is believed that success awaits the enterprise. The owners, W. A. Mackey and B. S. Kirkpatrick, are two popular young men of pleasing personality and the News wishes them every success in their new undertaking.

"Branding Broadway" At The Richmond

C. Gardner Sullivan, the celebrated Thomas H. Ince, scenario writer, has again rung the bullseye with "Branding Broadway." William S. Hart's latest Artcraft picture, which will be shown at the Richmond theatre today. And it is as different from Sullivan's usual stories as day from night—and every whit as good as his best. Whether it be comedy, tragedy, comedy drama, or what not—C. Gardner Sullivan seems equally at home. His is a rare genius—the sort one marvels at and finds difficult to define.

LOCAL WOMEN HELP HEART DAY SATURDAY

Heart Day Saturday will be in charge of a large committee of prominent local ladies, who are especially interested in child welfare work, among them being Mrs. J. G. Gerlach, Mrs. J. C. Owens, Mrs. Emily Axtell, Miss Nora Ashfield, Mrs. George Garrard, Mrs. Josie Neville, Mrs. H. A. Stiver, Mrs. K. M. Odell, Mrs. T. F. Cramer, and others whose names will be given later. Anyone interested in this work will be very welcome at Chamber of Commerce headquarters on Saturday. Mrs. Trenna B. Wright and Mrs. Pearl C. Hull are Field Workers of the "Children's Home Society," assisting in this work.

Office is at 64 Bacon Building, Oakland. Mrs. Helen Waxham is District Superintendent.

Endorsed by School Supt. Martinez, California, October 3, 1918.

To Teacher of Contra Costa County, California.

This is to certify that I am personally acquainted with the work that is being done by the Children's Home Society of California; and I believe that this is a work that is worthy of the support of every teacher and every thinking person in the State.

It is true, of course, that there are many demands being made upon your time and upon the resources of all of us, but while we are helping others in a very worthy manner, we cannot afford to forget those unfortunate children of our own who have neither parents nor home, and an appeal in their behalf should meet with ready response.

Raw Water and Rapid Sand

Rapid sand filtration is of comparatively recent origin. It is a method of purification following the processes of coagulation.

Coagulation is the changing of liquid (water in this case) to a thickened, curd-like state, not by evaporation but by chemical reaction.

Coagulation through the rapid sand process gathers from the raw water the clay particles and suspended impurities, including bacteria, into a jelly-like mass, and causes these to be retained on the grains of sand through which the raw water is allowed to pass at the rate of from 75 to 175 million gallons per acre per day.

When the filter bed of sand becomes clogged with this thick coating, it is agitated and cleaned by washing very rapidly with water in an upward direction, the reverse of that in which filtration is carried on.

This method of filtration is used in the modern and largest water plants in this country, and is the method used by this company.

Filtration and sterilization of water supplied by this company to residents of the East Bay region is carried on always by the most modern practical devices and methods known to expert water engineers.
